# COMPUTER BASED TRAINING

Computer Based Training offers many benefits to Indiana Department of Correction staff.

CBT allows staff to move through training at his/her own pace. CBT can be utilized in any location that has access to the State's PeopleSoft database; this location may be at a facility or at most computers with access to the Internet.

Currently, the Department is using CBT for portions of the Annual In-Service Training Program and for specialized training opportunities for staff.

Users are required to log onto PeopleSoft using their Username ID and PeopleSoft password. The Department's Annual In-Service Computer Based Training program is offered via the PeopleSoft Enterprise Learning Management (ELM) System. Each module is completed in the order it is presented and must be successfully completed to finalize the CBT portion of Annual In-Service Training. Upon completion, the system will automatically grade each module and provide the staff member with a Certificate of Completion, if desired.

Additional Computer Based Training Modules are being developed to replace, revise or add to current curriculums. Many of these modules will be refresher course material to enhance skill-based training, or are leadership and career development oriented.
